## Feedback Action taken report:

Use of ICT has been embedded in maximum classes. On the demand of Students College IQAC decided to install projectors in lecture halls as per requirement. A part of this the students demanded that the drinking water system should be installed in every faculty of the college, which was sent to the college's management, the demand was granted and implemented. Some students wanted it to be given more facilities to play, in this regard hon'ble Principal directed Sports committee of college and asked committee to implement in a week. Student's satisfaction has been increased.
